

Restart information of the Ikata nuclear power station unit 3

August 5, 2016

Shikoku Electric Power Company

Ikata Unit 3 restart operation process

We hereby inform that Shikoku Electric Power Company is going to restart the reactor on August 12th and start to generate electricity on August 15th.

After restarting generating electricity, we will conduct the adjustment operation as increasing output gradually. Accordingly, the plant is expected to reach constant operation at rated thermal output on August 22nd, undergo the final overall plant performance test by Nuclear Regulation Authority, and restart the normal operation at the beginning of September.
