September 3, 2024

Tohoku Electric Power Co., Inc.

Start of Fuel Loading Operations at Onagawa Nuclear Power Plant Unit 2

At 15:00 today, we started fuel loading*1 operations*2 at Unit 2 of Onagawa Nuclear Power Plant.

We will continue to make safety our top priority, and will do our utmost to ensure that the plant is restarted, while responding firmly to each process and carefully communicating our company's efforts to the local community.

End

※1 Fuel assemblies are inserted into the reactor (fuel loading).

※2 The fuel loading operation is scheduled to begin on September 3 for a period of about one week.
