Completion of Fuel Loading Operations at Onagawa Nuclear Power Plant Unit 2

We are pleased to announce that the fuel loading operation[※] at Onagawa Nuclear Power Plant Unit 2, which started at 3:00 p.m. on September 3, was completed at 2:50 p.m. today.

We will continue to make safety our top priority, and will do our utmost to ensure that the plant is restarted, while responding firmly to each process and carefully communicating our company's efforts to the local community.

End

※ The insertion of a fuel assembly into a reactor (fuel loading)
